

October 16<sup>th</sup>, 2019

We would like to share the results of “European Country rankings on the 2019 International Tax Competitiveness Index” made by the non-profit organization “Tax Foundation”. The Tax Foundation is the United States’ leading independent tax policy non-profit.

<https://taxfoundation.org/2019-international-index/>

We completely agree with Tax Foundation organization that says:

**<the structure of a country’s tax code is an important determinant of its economic performance. A well-structured tax code is easy for taxpayers to comply with and can promote economic development while raising sufficient revenue for a government’s priorities. In contrast, poorly structured tax systems can be costly, distort economic decision-making, and harm domestic economies>.**
